1. Kruchina was killed 8.26.91. \$11 billion of CPSU vanished
 2. Soros tanked bank of England with \$11 billion of someone's else money.
 3. Soros was loosing high priority to NSA enrollment in markets
 4. Someone from NSA - Mr.X most likely Clapper approached Soros around 2001 or 2002. from that point on
 5. Soros made up for everything he lost
 6. Soros shared developments with his FSB cobnections.
 7. Mr.X got on a Putin hook.
 8. Dodd Frank forces Soros to shut down fund in 2011 in order not to disclose donors. Otherwise connection between Mr.X and Putin would be obvious to FBI
 9. Clapper went to N Korea to free priest and most likely to deliver the codes to FSB.
 10. I start to shake things up
 11. Putin killes Shushukin and Sergun
 12. Mr.X delivers blackmail files on 80 or so electors
 13. There is a Coup in process to blackmail electors so on Dec 19th There will be enough defectors to choose Clinton. It was done by in Vatican to replace the Pope , so this is not a new game for the players.
 14. Putin bets on uprising and Soros has motions in place to provoke such an uprising by white Trump supporters.
 15. America enters a dark age as Putin propels Russia to Super Power.
- To deflect such a scenario the following steps should be taken
1. House needs to be ready for emergency session on Dec 19th to denounce the Electors vote for Clinton and to ratify the November 8th results.
 2. FBI needs to examine immediatly Soros donors prior to him shutting down the Hedge Fund and compare those donors to relatives, mistresses and best friends of top 5 NSA officials.
 3. FBI needs to obtain a warrant to monitor each and every one of 306 of Trump electors.
 4. Someone needs to advise Putin of existence of German files and their content.
 5. Putin needs to be advised that those files will be published all over Russia prior to Dec 19th should he proceeds with op.
- And may G-d help us

Patreus is too deep with Benghazi.

Did anyone tell Mr. Trump what actually happened there?

If not, it is about time.

This one will require complete disclosure to American people, followed by resignation of everybody involved. Don't forget nobody can guarantee anything about OBL after Stevens.

To even talk to Patreus under circumstances is a huge mistake. And not reporting to President Elect of those circumstances is a crime.

P.S this text is what prompted Brennan to
"Leak" Russian card a week prior to Dec19.

Good G-d. How naive I was. Of course Putin could not play this game without Obama in his corner. Obama was playing Trump card all along. That is why he sabotaged Hillary campaign. That's why he didn't interfere with Comey. That's why he encouraged Comey to make his statement a week before election. That's why he so called "stomped" for Hillary with all his body massage and In between the line massage - don't vote for here.

Now the CIA gives a legitimacy for 37 detectors. So nobody can suspect that this was all planned start to begin with. A no Trump vote on 19th, followed by "spontaneous" civil unrest on the 20th as was done in Cairo, escalated to same "sniper" killings in the crowds as was done in Kiev and you have a perfect reason for martial law. Obama is now enjoying an absolute

power in USA, and Putin secures Iran deal and Iran is now firmly in his corner as well as China, Syria firmly in his hands, Turkey and Egypt all at a sudden are his vassals and follow his rule. Only a matter of time US withdraws from Iraq and Iraq follows the suit. France and Germany pledge alliance to him.

The new world order.

NOW YOU. THE ONES IN NSA AND CIA AND FBI THAT STILL HAVE ANY MEMORY LEFT OF THE OATH THAT YOU GAVE.

IS THAT WHAT YOU CAN LIVE WITH? I KNOW FOR A FACT THAT YOU READING THIS. IS THAT THE FUTURE YOU ARE WILLING YOUR CHILDREN TO HAVE? IS THIS THE COUNTRY YOU PROMISED TO DEFEND?

And what you will do when my predictions come true? How will you live your life after? Beware that the destiny of hundreds of Russian intelligence officers killed by Putin because they accidentally run on some compromate material on him, the destiny of Team 8 seals killed on Obama's orders as well as everyone else who had any knowledge or suspicions of OBL capture and transfer to Lydia shortly after - that is your destiny.

You all destined to die under new world order.

For one simple reason.

YOU KNOW.

And nobody who knew about any dictator- be that Sulla, Stalin, Hitler or Putin was allowed to live long enough to expose their Master.

P.S The only way CIA can have an indisputable proof that Russians not only hacked to DNC and Podesta emails, but also delivered the hacked material to Assange - is if GRU "leaked" such a proof to CIA. If that happened, then most likely the most important info was obtained by CIA after November 8th.

This is what Putins game plan after Trump clinched Republican nomination and the reasons for Putin giving the proof of his engagement with Assange to CIA

1. Most preferable end is

instability in US, martial law and President Obama in power. Putin continues to controlle American President with a blackmail files that would take years just to read.

2. Clinton becomes President and Putin secures his dominant role in a world arena, by continuing the same blackmailing strategy against Clinton's administration as he had done against Obama's.

3. Despite all the efforts Trump becomes president. Then Putin starts to build a relationship on a high note from position of a "Friend". And although Putin doesn't have a blackmail files on Trump, the fact that he "Helped"

Trump with Assange as well that he is privileged to US most secretive intelligence info, as well as most humiliating info such as CIA op to replace the Pope, NSA surveillance on US senators, congressman, Supreme Court Justice, etc in order to later using the obtained data for Obama to blackmail those politicians goes a long way. If you have any doubts emagine what publishing the emails from Rahm Emmanuel to Lerner's boss with an order to suppress Republican donors would do? Or revelation of Blackmail of Supreme Court Justice Roberts for him to change his opinion 180 degrees on Obama care?

So while a Trump Presidency scenario is a least plausible for Putin, the blackmail files on majority of US power holders as well as "You owe me " massage to Trump pretty much guarantee the Iranian deal, Syria offence, and the remapping of spheres of influence in Russia's favor.

The brilliancy of Putins game is that he is achieving his goals in any possible scenario.

The hacking attempt by DHS into State of Georgia office of Secretary of State is a latest proof of my assertion of a coup. No doubt that DHS hacked in majority of Republican Controlled states with high probability of Revolt following "No Trump" vote by electors on December 19th.

At the end of a day it will be DHS task to subdue such a Revolt.

There coup is at its final stage.

There is a way to stop it however.

Two things need to be done:

1.RNC need to ask all

Republican party committees that voted

Trump to do an unprecedented thing-

same thing that Elliott Ness did when he found out that Capone jury got compromised- replace the jury.

This is a language that can be used:

Due to unbelievable amount of pressure to Electoral Body members that in many instances reached a level of Federal offence, and to protect the integrity of our voting process as well as to insure the Democratic process of people's will and to make certain that outside threats, blackmail and other means of pressure on electoral college members will not result in the outcome of their vote, DNC requests all State Republican committees to replace the current electors with a new ones.

Those new electors should be simple Republicans without any official ties to Republican State parties. Another words - simple Republican voters.

The reason for that measure is that Putin most likely thought of this development and NSA probably have files on anyone who might be chosen as elector.

Bringing simple folks that late in a game will

simply deprive the Coup organizers of time nessessary to adjust.

2.This one is to sensitive to email. Please ask Director Comey if he can meat with me.

NSA master codes

Someone should check

1. how often NSA master codes are changed - they should be changed at least once a month.
 2. when NSA master codes were changed after Snowden defection.
 3. Who had access to NSA master codes after Snowden defected.
 4. Who had the opportunity to pass those codes to Russians
- And finally all back doors to all NSA applications should be eliminated

Memo

Under the original conspirators plan it was irrelevant who wins. If it is Clinton - Comey comes up with a new bombshell smoking gun in email investigation and recommends prosecution to DOJ between November 8th and December 19th. If it is Trump - the Russian Card is played out. That is the reason Obama ordered to keep the Russian Card a secret till after the election. A mere acknowledgement by Comey of investigation of Trump campaign collusion with Russians would kill Trump chances. This is not century old "Grab em by the p...." tape. Obama always hoped that it would be Trump on November 8th, as tanking Clinton after she clinged the nomination would definitely alienate a good part of Democratic Party Establishment from him. He was ready for this scenario but preferred to play Trump and Russian Card instead of email scandal. He then would unite all the left behind himself as a World Saviour. In any case on November 17th the files you prepared on all the electors- be that Trump electors or Clinton electors- would be used to blackmail enough members of Electoral College to have No candidate to achieve a 271 vote mark and to force the matter to Congress.

The files that was prepared by Admiral Alexander on the members of Congress would then be used in a third act of the play when instead of voting to accept the result of November 8th election Congress would announce the New election within a 2 year period and extend Obama term as one's in a lifetime measure to "Protect the Democratic process "and not to allow the person who disqualified him or herself to hold the highest office of the land.

Of course the civil unrest on both sides would be necessary to convince American public that the idea of picking up a Pence or Kain is a road to nowhere.

The postponed new election then would be accepted by majority as a best possible scenario.

This whole thing blew up with my November 16th memo. Instead of delivering the files on electors you took a flight to New York to meet President Elect.

So technically you yourself did not had a chance to commit any serious crime and thus are in a unique position of a member of a conspiracy group who did not commit a crime. Should you come to President with all the factual data there is a 100 percent guarantee that you will not be prosecuted. And have no doubt that the reason behind President Trump firing Comey

is not Russian investigation.

Comey was the only person who could sabotage Presidents order to FBI for OBL-Benghazi investigation. And with my communications in past 6 month analyzed by hundreds of people around the world it was only a matter of time for President Trump to be convinced that his only chance to succeed is to start prosecuting every one in OBL and Benghazi case.

You did not play an active part in those cases either.

So you have a short opportunity window.

Don't blow it.

Putin-Obama-Soros-Clapper and Co lost. There are a cosequences of an unsuccessful coup.A lot of people will go to jail. Rise yourself above the tactical map.Look at the whole picture strategically.

Trump is here to stay.

GCHQ And Comey

1 message

To: phoenix@ic.fbi.gov

Mon, Jun 26, 2017 at 11:54 PM

Comey was given certain materials by Brits in Queenstown. He did very little to safeguard it and further on deciphered and copied the material in a facility that is not equipped to guarantee safe copying and deciphering. He never turned the materials to FBI. FBI should retrieve it and do it fast. And analyze it to better understand the mechanisms conspirators use. Those methods are

1. GCHQ and few other British agencies collect info on Trump and his associates.

They had been wiretapping Trump and his associates all day long.

2. They then through series of second and third faces and sometimes by direct communications to Russians make Russians to contact the Trump people, thus making it look like they "accidentally" collecting info on Trump people. This is done because it would be much more difficult, if not impossible, to investigate Britain Intelligence Officers that are spying on American citizens. This is of course if recordings of certain conversations would never see the light of the day. And even if such a recordings will be made public, and a revolution happened in UK and Nigel Farage becomes prime minister - the worst thing that happens to those Brits at the top levels of GCHQ and other agencies would be retirement and good pension.

As there is certainly no laws in Britain that prohibits their Intelligence to spy on anybody in the world, including might be President of USA or even a President of USA.

3. The third step is fabricating by pasting and clipping voice recordings, emails and so on, making sure that French, Germans and Australins will pick some of those communications and then pass it over to Brennan and after his departure to Comey. French and Germans will obviously pass it to same people as well.

4. As NOBODY even had a thought that British Intelligence is involved in American Coupe, everyone, including Trump, takes their assessment and their intelligence at a face value.

The only problem is that third of this so called "intelligence" is simply manufactured.

A thorough check of this "intelligence" will show a deliberate "Act of War" on part of British Government against USA. Because a deliberate manufacturing and tendentious presenting of information to US Intelligence and US Congress with a goal

to overthrow the President of USA is in fact an act of war. And of course Russian agents going to play into this as the whole thing is Putin master plan anyway.

There why it is important for FBI to immediately retrieve the materials Comey brought from New Zealand. He still has copies. It is also important to know whom he gave originals to.

Those materials was prepared by Brits under time pressure and there why it is much easier to separate the real Intelligence from a manufactured one. Those materials are a genuine proof of British involvement in a Coupe attempt to impeach Trump. I am pretty sure that some of you already took steps and placed Comey under 24 hours surveillance at your own risk. He has to take such a scenario into consideration after my latest communications, especially one to FBI disclosing his role and one to Breitbrat and few others about him taping Obama and others. He has no friends now as the people he associated himself with will never forgive him taking certain recordings that he took in order to secure himself minimum prison term in case whole thing goes wrong. He knows that. He also worries that he is being watched not only by Clapper, Brennan and Co, but now also by some FBI and NSA guys who took the task upon themselves to preserve American democracy. So the last thing he will do is coming anywhere close to those New Zeland copies. He realise that they are toxic and coming close to them will either get him killed or arrested. So he will simply deny making those copies like he denied taping Obama and some others conversations.

All you have to do is find those copies before Clapper finds them.

Fusion GPS was advised by MI6 to hire Christopher Steele for anti Trump dossier and at the same time same Fusion GPS works for Putin through the same Natalia Veselnitskaya that played Trump Jr. as a 2 dollar bill.

It is clear that Putin is a Real Mastermind behind the Soft Coup.

There is no chance of ANY leaks connected to Trump on behalf of any Russian officials without Putin ordering such a leak. Everyone working for Russian Federation knows that any person responsible of unapproved leaks about Trump, Flint, Trump Jr, Kushner, Manafort or anyone else on Trump inner circle will surely die of natural causes -such as fatigue for example.

There is also a very little chance that Kislyak would discuss a conversation with Sessions over unsecure line without direct orders from Kremlin. And ANY line considered unsecure under Russian Federation Secure Clearance Guidelines for matters of High National Security levels. Such a matters can not be communicated through phones, emails, diplomatic cables, etc. They even can not be delivered through diplomatic mail, although such mail can not be intercepted by International laws. They can not even be communicated through coded massages. Such a serious matters only can be hand delivered by Resident GRU or FSB official in the embassy. Certainly any serious conversation with US Senator about US campaign would fall under Russian Federation National Security guidelines. The only way Kislyak would discuss a conversation with Sessions is because Putin WANTED this discussion to be intercepted by American Intelligence.

If FBI will analyse timeline of Anti Trump developments , along with Pro Trump statements of Russian Federation officials, that ignited the uproar in media and Congress along with actions of players like Simpson, Goldstone, Steele - it can clearly see not only a game played by a scenario, but also Putin behind the scenario. Obama, Clapper, Brennan, Comey and others are nothing but figures on Putin chessboard.

Time for FBI to seriously consider the possibility that there was a Coup, led by Putin, to deny Trump Presidency and install Obama for a period of political uncertainty and as a result to undermine completely USA leadership in the World Arena. Time for FBI to also consider a possibility that there is a Coup going on to impeach Trump and thus protect Russian agents like Clapper from prosecution. Also time for FBI to consider that Putin and GRU is behind all Anti Trump efforts.

And time for FBI to finally take side- whom are you with-

politically incorrect, sometime irrational, emotional , unpredictable or even ignorant AMERICAN PRESIDENT or with Putin and Russian Intelligence.

Because if you are not protecting Trump, then you effectively becoming a weapon in Putin's hands.

McCain is tanking Trump on everything just to make sure that Trump will not gain popularity again and will fail on all his promises- from Healthcare to Wall. Because Trump, if and when find out about Abbotabad and Benghazi will blow the whole thing up. And then War Hero, American Troops Biggest Supporter McCain will all at a sudden will be recognized by American people for what he really is- a coward. Coward, who without being tortured- despite the well known fairy tale- spilled everything out on his very first interrogation by Vietnamese.(Old KGB archives have some interesting details of Captain McCain cooperation with Soviet Military Intellegence).Coward who looked another way when Real American Heroes were killed on the orders of another coward who was afraid that the truth about OBL will come out.

I am pretty sure if he will continue subbotaging Trump there is a chance that recordings of Obama and certain administration officials meetings with Heads of Armed Services Committees and Select Commitees of Intelligence will become public.Yes, yes, the recordings of the meetings where McCain was invited when Obamas secured the unanimous support of everyone involved in the operation to capture and torture OBL for info.

1. Why then FBI director Mueller was chosen to deliver the Uranium to FSB instead of standard delivery practice outlined for such a case?
2. The original request for uranium sample was originated by office of Prosecutor General of Russian Federation. Why did Obama Administration and Secretary Clinton demanded that the sample be delivered to FSB officials instead of office of Prosecutor General of Russian Federation?
3. How many grams of uranium did Mueller delivered to FSB?
4. Was it a single 10 gram sample or not?
5. Was the sample or samples from American Uranium Mines that became later part of Uranium deal with Russians delivered by Mueller to FSB?
6. How long meeting with Russian official or officials took?
7. Who was those officials?
8. What was discussed?
9. NSA have voice recordings of the meeting. Can those recordings be examined?
10. FSB also has recordings as well notices that help in understanding of the nature of the meeting. What would it take to obtain those notices and recordings?
11. Why Russians never used or simply mentioned the 10 gram uranium sample that they requested for forensic analyses in any of their court proceedings?

How Putin achieved access to NSA applications- Please forward to Director Wray

Good afternoon,

By 1989 Soviets Economy was on a brink of total collapse. Gorbachev needed German capital infusion badly. Kohl demanded the unification in exchange. Shortly after the principal agreement was reached between Gorbachev and Kohl on particulars of the deal, Germans approached Russians with a request to halt all KGB activity and deliver all Stasi and KGB files, including the NOC list of Russian agents as well as files on all Stasi informants. Gorbachev ordered Putin to deliver the NOC list and all the top secret KGB files with information on KGB entire activity in both Eastern and Western Germany. Almost all the KGB agents in Germany were apprehended shortly after and few that were not apprehended were monitored. Later on few people who new of Putin's involvement -like Horst Bohm -committed suicide or died of natural causes. The only person who has all the info and docs and is still alive is Chancellor Schroeder.

Putin later claimed that he "destroyed" all the KGB files in order for them not to be captured by angry German citizens on November 9, 1989 when the Germany unification prompted attack on KGB offices in Dresden. The so called attack was orchestrated by Putin himself.

The head accountant of CPSU Kruchina "committed suicide" on August 26, 1991 shortly after the attempted coup in Moscow. \$11 Billion of CPSU money disappeared. Only Kruchina and Gorbachev knew where the money were. Yeltsin threatened Gorbachev with prosecution for orchestrating the coup and backed off in exchange for the money.

The business relationships between Russian and German companies grew up. Yeltsin was collecting two percent "commissions" of each deal. Putin was in charge of making sure that those "commissions", that amounted to billions of marks, would be transferred to secret accounts through old KGB channels. He naturally was fit to this type of activity as someone who could be trusted by both Germans and Yeltsin circles. The trust was based on the fact that Germans and Yeltsin had documents that tied Putin to treason. And in Russia, betraying your comrades is the worst label one can have, even if you acted on orders of your superiors or Head of State himself.

On November 9, 1992, Soros tanked Bank Of England with \$11 Billion of CPSU money.

Putin was in charge of money laundering operation. It is not clear if Soros was recruited by Soviets long before as part of MGB operation "Capital" or

he was first approached by Russian agents in 1992. In any event he either was or became an asset for Russian Intelligence.

Anatoly Sobchak, Putin's friend and mentor, returned from exile with Putin's support in June, 1999. He was one of few people who was not only aware of Gorbachev and Yeltsin two percent scheme, but also had some hard documents in his possession. He once "jokingly" told Putin that he could make those documents public, should Yeltsin continue resistance to Sobchack returning to public arena. Putin had Sobchak killed within a week. Putin was Sobchak's daughter Ksenia godfather.

He ordered to make her a Kremlin Courtesan. Later on Ksenia Sobchak amassed a trove of files, that, if become public, would prompt a Pugachev style uprising in Russia. She has her fathers part of 'German Files', the docs on "Apartment Bombings", the photos of Kadyrov Senior with Chechens that delivered the explosives to Moscow, the details of GRU involvement in both bombings and eliminating the principal actors like Kadyrov Senior. The files was given to her by different people, who knew that their life was in danger. Majority of those people, such as Politkovskaya and Nemtsov, died shortly after they gave the files to her. She always delivered the originals to Putin immediately after receiving them. She also always made copies.

Putin realized that US developed new Intelligence applications shortly after Prism kicked in sometime in 2007.

He most likely was sort of blackmailed by Bush with certain data that was simply impossible to obtain without new methods of collecting the information.

GRU and FSB were directed to find origins and scope of new collection methods.

One of the few ops that was not disclosed later on by Snowden was the US spying on heavy hitters of financial markets in order to prevent a possible financial meltdown triggered by markets collapse.

I don't know who approached Soros sometime in 2008 with an offer to use the inside trading information obtained though NSA under operation to monitor the markets. He definitely was approached and profited greatly. Sometime in 2010 Clapper advised Soros that he is now a new point man. Soros shared developments with Russians. Soros shut down his Fund in summer of 2011 in order to hide his relationship with Clapper and few others. Under Frank-Dodd Soros had to publicly identify Fund donors and then it would be just a short matter of time for some reporter to tie Clapper and other few high profile Intelligence officials and politicians to the fund.

It is not clear when and how Clapper was approached by GRU. As a master spy Clapper knew that spy can not be caught

And he never did. Except once.

He, however, though different manipulative moves, helped Putin greatly.

In many instances Clappers involvement and recommendations to President Obama helped Putin to achieve his goals - either with his global ambitions or pursuing his maniacal idea of becoming world's richest man. Just few examples - the whole CIA Maidan op was developed by Clapper and Brennan once Putin decided that having Crimea back was more important for him than having his puppet Yanukovich as Ukrainian President. Based on FSB analyses economical situation in Ukraine was sharply deteriorating and Ukrainian nationalists coming to power was just a matter of time.

Then Brennan was placed in charge of the operation to overthrow pro Kremlin regime in Ukraine. At the end Putin grabbed Crimea. CIA did all the dirty job for Putin.

All he had to do was to look another way when those snipers were killing people on both sides of the Maidan conflict. The other example of Clappers help is that despite of all the evidence that Putin established few thousand of daybroker operators around the globe and used NSA insider trading data to amass over \$100 billion in just few years, Clapper made sure that the evidence would remain hidden in NSA chambers and FBI would never be alerted.

On November 8th, 2014 Clapper had to break his rule to never contact his handlers. He traveled to North Korea. There he passed the NSA master codes that only Director of NSA and Director of National Intelligence had. Those master codes were changed after Snowden fiasco. Clapper passed the codes to Kim Yong Chol. Choe Ryong-hae delivered the codes to Putin on November 19th.

I wanted to make sure that Putin had the master codes and they were not changed at least on monthly basis as any logical NSA protocol would demand.

On March 3rd at 11 PM Phoenix time I texted to myself certain things. If Putin still had access to NSA aps, those texts should be delivered to him immediately. I detailed in my texts topics like Kadyrov Junior behind Nemtsov murder, Kadyrov Senior behind apartments bombings, Putin ordering Sobchack assassination, German Files, NOC list, etc. Putin disappeared from public for 10 days.

During those 10 days he had allowed no one to see him. He was analyzing every letter in my texts. He had to know who and how shared the info with me. And what's most important why.

In late December 2015, Sergun - head of GRU and Shushukin - head of GRU Speznaz were killed within three days of each other.

I first shared the information with Phoenix FBI office in March, 2015. I also gave FBI the copies of my texts to myself with March 3, 2015 date. I implicated Clapper as the Russian asset.

I also explained how the operation to capture Bin Laden and transfer him to Libya backfired. Putin knew that Bin Laden was not killed in Pakistan. This would be obvious to anyone with brains. Putin started to look for Bin Laden. The rest was technicality. At the end Stevens delivered OBL to GRU controlled Arab operatives who actually killed and buried Bin Laden. The whole Benghazi fiasco was a botched by Patreus CIA op to eliminate the double agent Stevens. Later on Putin finished the most brilliant Intelligence operation of recruiting the President of USA with Snowden's disclosure that the whole Abbottabad op was videotaped by NSA from satellites and US had DNA evidence that it was actually Bin Laden. The disclosure, in simple terms, was Putin communicating to President Obama that Putin was in possession of the video of Bin Laden taken to helicopter alive along with DNA proof that it was actually OBL. Unfortunately Director Comey decided to use the information I provided for his personal gain. He made himself useful by sharing with Obama and Clapper that he knew what was going on. Later on Comey played a central role in conspiracy to undermine the elections in order to help Obama to gain extra two years in office.

Putin was behind the whole thing again.

Putin wanted to secure two more years for Obama in order to make sure that his geopolitical agenda succeeds. Obama was confronted with the fact that Putin not only had OBL video, but knew all the details of all of US Intelligence activities. Such as operation to replace the Pope. Or blackmailing of Supreme Justice Robertson in order to change his vote on Obamacare. Or regular use of NSA applications to obtain blackmail files on US congressmen and senators- and sometimes using such a files to punish opposition- such as Weiner or Melendez, both of which opposed Obama policies towards Israel. Or Emmanuel's emails to few IRS officials asking to put pressure on conservative donors. Or killing of Rolling Stones Michael Hastings when he got too close to Patreus and Benghazi. And finally Brennan's orders of killing the US Team 6 Seals that took part in Pakistan op.

Add to it the fact that Putin had all email communications of anyone important in Obama circle and you can be rest assured that Obama will follow Putin orders.

Take for example Obama's call to Putin on March 2, 2014. The whole reason behind the call was that Obama needed Putin's permission of what actions US can take against Russia after Crimea was annexed.

Putin opposed to all but last offer Obama made. Obama- we will.... Putin - I wouldn't do it if I be on your place. Obama - then we will..... Putin - wouldn't do it either. Only the last one - Obama - we will blacklist certain Russian officials- Putin gave his blessing- what can I say- you are a President of USA. Do as you wish. Sure enough blacklisting of few Russian officials was essentially all the sanctions against Russia.

Putin needed this Obama in office for two more years. The original plan was to discredit both Trump and Clinton before the election. Then, if Trump gets elected- the whole Steel dossier along with Brennan, Clapper and Rogers open testimony in Congress hearings as well as Soros funded never Trump demonstration all over USA will help justify in public eyes the electors swing to Clinton. Once this happens Comey brings chargers against Clinton based on "new and just now discovered"

information. And then Congress votes pretty much unanimously to nullify the elections results all together and schedule new elections in 2018.

If Clinton gets elected, then things are much easier as there is no reason to use blackmail files on electors. Admiral Rogers was in charge of collecting those files. Same Comey brings same chargers against Clinton and we have a new elections in 2018. Trump was never Putin's first choice.

He never was Putin second choice. He never was Putin's any choice. Because Trump is the only one who could actually jeopardise Putin's geopolitical agenda - either with Iran Nuclear Agreement, Syria, Jerusalem status, relationships with Egypt, India, and , most important - China. And knowing that Trump's most powerful solution to all conflicts is hurting USA opponents financially, Putin knew that it is just a matter of time before FBI will go after his billions he collected with NSA inside trader info. Putin's first choice was always Obama. Then , if it doesn't work - Clinton. Because he has about as much blackmailing material on her as he has on Obama. He has very little on Trump. Trump never used email. And the video of Trump and some russian whores does nothing for Putin because if Putin starts to blackmail Trump with it, the result would most likely worse than not having this video at all.

So just in case everything fails and Trump is a President- the stage we are at now is played. Trump thinks that Putin was helping him, when in fact Putin is doing everything possible to have him impeached with old buddy Mueller's help. Same Mueller who played major role in Uranium One deal.

In November of 2013 I contacted the AP office in Manhattan and ask to meet someone who would have interest in info on Snowden. I was introduced to head of AP security Griggs. Over next three meetings I shared with Griggs some of the info on Snowden, OBL and Benghazi.

Althow I was sure that FBI watched me for sometime after I immigrated from the USSR, I knew that I was not someone FBI had interest in for last few years. What's more important i was definetly not on NSA radar. By walking to AP office I changed things. From now on NSA would definitely monitor my phone and email. Just as a matter of precaution. I will not go into lengthy details of how and when I used the texting to myself- i.e texting to NSA - in order to change some of Obama policies. If you have interest, I will share that info with you.

This is a copy of my text to myself on November 16, 2016-

1. Kruchina was killed 8.26.91. \$11 billion of CPSU vanished.
 2. Soros tanked bank of England with \$11 billion of someone's else money.
 3. Soros was losing high prior to NSA involvement in markets.
 4. Someone from NSA - Mr.X ,most likely Clapper, approached Soros around 2010 or 2008. From that point on
 5. Soros made up for everything he lost
 6. Soros shared developments with his FSB connections.
 7. Mr.X got on a Putin hook.
 8. Dodd Frank forces Soros to shut down fund in 2011 in order not to disclose donors.
- Otherwise connection between Mr.X and Putin would be obvious to FBI
9. Clapper went to N Korea to free priest and most likely to deliver the codes to FSB.
 10. I started to shake things up
 11. Putin killes Shushukin and Sergun
 12. Mr.X delivers blackmail files on 80 or so electors
 13. There is a Coup in process to blackmail electors so on Dec 19th There will be enough defectors to choose Clinton. It was done before in Vatican to replace the Pope , so this is not a new game for the players.
 14. Putin bets on uprising and Soros has motions in place to provoke such an uprising by white Trump supporters.
 15. America enters a dark age as Putin propels Russia to Super Power.

To deflect such a scenario the following steps should be taken

1. House needs to be ready for emergency session on Dec 19th to denounce the Electors vote for Clinton and to ratify the November 8th results.
 2. FBI needs to examine immediately Soros donors prior to him shutting down the Hedge Fund and compare those donors to relatives, mistresses and best friends of top five NSA officials.
 3. FBI needs to obtain a warrant to monitor each and every one of 306 of Trump electors.
 4. Someone needs to advise Putin of existence of German files and their content.
 5. Putin needs to be advised that those files will be published all over Russia prior to Dec 19th should he proceeds with op.
- And may G-d help us.

Within the hours of this text two sings happened.

1. Clapper issued a statement that he submitted his resignation - a code sign to conspirators to abandon the plan.
2. Rogers flew to NYC to meet Trump. He was checking on Trump. If Trump knew. In case Rogers would smell anything he would immediately rat on all the people involved.

There were many texts after. As well as emails to FBI.

You have to decide what steps you will take, if any. One thing is for sure - Three countries are in possessions of OBL photos and videos in Pakistan and Libya. No way this can be kept secret much longer. Where would you like to be when the story breaks?

How Putin recruited President Obama -Please forward to Director Wray

Once Putin gained access to virtually all of NSA database, he amassed enough blackmail files to control and shape American Foreign Policy for decades.

The question was how to use the information without compromising the sources from Clapper on top and down to pawns like Snowden at the bottom. Snowden was just a decoy, behind whom the real assets like Clapper was hiding.

Snowden also served a purpose of continuing blackmail communication from Putin to Obama. A simple comparison of timetable of Snowden leaks and major international developments shows that every time either the new leak was published or Snowden made a statement - US cave on a world arena - either with Iran Nuclear Negotiations, Russian Sanctions, in Ukraine or Syria, etc.

The final touch was played after Obama August 20, 2012 statement imposing a red line in case Assad will use chemical weapons. Exactly a year later Assad used such a weapons. He did so after Putin assurance of Russia's full and unconditional support, including military engagement. Another words, Assad only used chemical weapons after Putin guaranteed his and his family personal safety as well as Russia complete commitment to preserving the regime. Without such assurances Assad would never risk to share Gaddafi's fate. Especially at a time when there were no danger to regime and Assad's military was on offence at a time. The gas attack happened on August 21, 2013. Putin made sure that there should be no doubt that Assad is responsible. So Assad's brother Masher gave the orders on open line. It was intercepted confirmed by Israelis on August 26th. Entire Obama National Security Team was sure that a military strike will follow within days. On August 30, 2013 Snowden commented that the entire op in Abbottabad was recorded by NSA. He also shared the fact that DNA evidence confirms the OBL identity. Few hours later, on August 31, 2013 Putin gave an interview in city of Vladivostok. During the interview he said among other things -

You know, I would first and foremost address [Barack Obama] not as my colleague, not as the President of the United States and the head of state, but as a Nobel Peace Prize laureate.

In a simple english Putin said - one bullet over Damaskus - and the entire world will see the OBL taken to helicopter alive. And then Mr.Obama the only title you will have is a Noble Prize laureate. Within few hours Obama "urgently" decided that US will not engage in Syria without congressional approval.

Once the whole world witnessed Obama's humiliation and Putin knew that he has successfully acquired president Of USA as Russian Asset, Putin handed Obama a bone - Syrian Chemical Stockpile will be destroyed under US observance.

The obvious questions that arise are following

1. Snowden was investigated by CIA in 2009. Why FBI never investigated how it was possible for an internal CIA investigation to be closed, who gave an order to close the CIA investigation, who gave an order to transfer Snowden to NSA, etc. And why an obvious connection between Snowden and GRU was not investigated by FBI either.
2. Why FBI never investigated the blackmailing of US President and other officials with NSA collected data, emails, phone conversations, texts, etc.

Mr. Director, do you think that burying once had in a sand, like Strauss, will actually eliminate the danger of having the majority of US officials to evade Putin's blackmail?

2d communication on Dec 12, 2016-

Good G-d. How naive I was. Of course Putin could not play this game without Obama in his corner.

Obama was playing Trump card all along. That is why he sabotaged Hillary campaign. That's why he didn't interfere with Comey. That's why he encouraged Comey to make his statement a week before election. That's why he so called

"stomped" for Hillary with all his body massage and

In between the line massage - don't vote for here.

Now the CIA gives a legitimacy for 37 detectors. So nobody can suspect that this was all planned start to begin with.

A no Trump vote on 19th, followed by "spontenious" civil unrest on the 20th as was done in Cairo , escalated to same "sniper" killings in the crowds as was done in Kiev and you have a perfect reason for martial law. Obama is now enjoying an absolute

power in USA, and Putin secures Iran deal and Iran is now firmly in his corner as well as China, Syria firmly in his hands, Turkey and Egypt all at a sudden are his vassals and follow his rule. Only a matter of time US withdraws from Iraq and Iraq follows the suit. France and Germany pledge alliance to him.

The new world order.

NOW YOU. THE ONES IN NSA AND CIA AND FBI THAT STILL HAVE ANY MEMORY LEFT OF THE OATH THAT YOU GAVE.

IS THAT WHAT YOU CAN LIVE WITH? I KNOW FOR A FACT THAT YOU READING THIS. IS THAT THE FUTURE YOU ARE WILLING YOUR CHILDREN TO HAVE? IS THIS THE COUNTRY YOU PROMISED TO DEFEND?

And what you will do when my predictions come true? How will you live your life after? Remember that the decision of

hundreds of Russian intelligence officers killed by Putin because they accidentally run on some compromate material on him, the destiny of Team 8 seals killed on Obama's orders as well as everyone else who had any knowledge or suspicions of OBL capture and transfer to Lydia shortly after - that is your destiny.

You all destined to die under new world order.

For one simple reason.

YOU KNOW.

And nobody who knew about any dictator- be that Sulla, Stalin, Hitler or Putin was allowed to live long enough to expose their Master.

P.S The only way CIA can have an indisputable proof that Russians not only hacked to DNC and Podesta emails, but also delivered the hacked material to Assange - is if

GRU "leaked" such a proof to CIA. If that happened, then most likely the most important info was obtained by CIA after November 8th.

This is what Putins game plan after Trump clinched Republican nomination and the reasons for Putin giving the proof of his engagement with Assange to CIA

1. Most preferable end is

instability in US, martial law and President Obama in power. Putin continues to controlle American President with a blackmail files that would take years just to read.

2. Clinton becomes President and Putin secures his dominant role in a world arena, by continuing the same blackmailing strategy against Clinton's administration as he had done against Obama's.

3. Despite all the efforts Trump becomes president. Then Putin starts to build a relationship on a high note from position of a "Friend". And although Putin doesn't have a blackmail files on Trump, the fact that he "Helped"

Trump with Assange as well that he is privileged to US most secretive intelligence info, as well as most humiliating info such as CIA op to replace the Pope, NSA surveillance on US senators, congressman, Supreme Court Justice, etc in order to later using the obtained data for Obama to blackmail those politicians goes a long way. If you have any doubts emagine what publishing the emails from Rahm Emmanuel to Lerner's boss with an order to suppress Republican donors would do? Or revelation of Blackmail of Supreme Court Justice Roberts for him to change his opinion 180 degrees on Obama care?

So while a Trump Presidency scenario is a least plausible for Putin, the blackmail files on majority of US power holders as well as "You owe me " massage to Trump pretty much guarantee the Iranian deal, Syria offence, and the remapping of spheres of influence in Russia's favor.

The brilliancy of Putins game is that he is achieving his goals in any possible scenario.

And finally the on December 22, 2016-

Obama should be careful with UN gambit. A lot at stake for him. And Snowden is not the only one who had access to NSA " Video Unit Stuff"

Putin should be careful as well. After all Schroeder made a copy of a NOC list with his prints on it.

Interesting enough the whole Paris Anti Israel Conference was scrambled by Putin after December 22 communication. Obama was trying to push forward with it till Dec 26 when I texted the following-

Bibi also should be given permission to use whatever embarrassing info he has on Obama personally. Like deleted Emmanuel emails. That if he has any. If not those emails should be dropped on his lap. Nothing that could harm US but something that can result in Congressional inquiry and special prosecutor into Obama inner circle. And possibly into Obama himself.

Erovikin was a part of small group of EX KGB officers that created the Oligarchical Capitalism in Russia. They started with CPSU and KGB money. He personally was involved with Kruchina, Soros, Mr.X, "leaking" the damaging to Trump data to CIA. Once I texted about KGB NOC files that was delivered by Putin to Germans and Erovikin had intimate knowledge of his fate was sealed.

T.S. Ellis III , Emmet G. Sullivan ,Dabney Friedrich -Please forward to Director Wray

Within few days Clapper will blackmail Judges T.S. Ellis III , Emmet G. Sullivan and Dabney Friedrich. He will do it using an illegal access through NSA applications like Prizm to above mention Justices personal email accounts, cell phone texts and conversations, bank accounts and other personal data. It will be done in a same way President Obama blackmailed Chief Justice Roberts to change his vote on Obamacare.

In a casual conversation each of those justices will be informed of the existence of a materials that, if published, will expose those Justices with either committing a crime or an act of immorality of huge proportions.

No favors or demands will be made over the course of conversation.

The above mention Justices will figure out by themselves who is behind and what actions they are expected to take.

So you have no doubt that Clapper still have an access to all of the NSA application please refer to my email to FBI of December 15, 2017. In this email I started to explain the mechanism and details behind Putin's op to acquire President Obama as a Russian Asset. I finished my explanations in the December 20th, 2017 email to FBI. Clapper is aware that someone methodically delivering my communications to different pundits and immediately realized the danger of having one of those pundits using my arguments in his show so he used a counter attack - on December 17th, 2017 he accused President Trump of being Putin's asset. Obviously any attempt by conservative pundits to explain the details of most brilliant intelligence operations to acquire President Obama as a Russian asset would then be looked at by general public through the prism of previous Clapper statement that President Trump is Putin's puppet. Then the

general public would dismiss a serious accusations against Obama as a reaction to Clapper statement on Trump.

Here is a question - how did Clapper find out about my email to FBI. The easiest answer - he was shared the info by someone like Strzok or Page who are still having a top security clearance and obviously have access to my communications.

But such a scenario is becoming problematic in light of risk factors of communicating to Clapper by FBI agent.

And Clapper probably would avoid such a risk. Most probable case is that Clapper have an access to my communications

through NSA applications. If that is a case, he also have an access to those Judges personal emails and phones, as well as to

anybody else in the world -including your personal email, Mr.Director.

This is becoming way more then just a coupe to unseat President Trump.

This has become an assault on the USA political system.

If FBI will allow the use of NSA to blackmail Federal Judges in order to move Mueller's case things will never be the same.

So please, those of you who still care about this country - please take matter in your hands.

And this time delivering my emails to Dershowitz and Hannity is not enough.

You will actually have to monitor those Judges 24 hours a day - whom did they see, when and what was discussed.

Sent from my mobile.

There are intense preparations of two witnesses to new accusations to make sure that they won't be caught on lies to FBI. Intel guys involved. Most likely the devices along with emails and texts used for communications will be destroyed shortly . Senate will have to subpoena the phone records as well as NSA records under bulk collection to get to the bottom of this conspiracy. Need to get all texts, emails phone communications from everyone involved. Start with attorneys.

As chief of staff of Joint Task Force 435 Stearney oversaw the operation to transport OBL from Kabul to Benghazi. His death is another one in a chain of departures of everybody who was involved in capturing OBL in Pakistan, transporting him to Libia, torturing etc. Stevens handed OBL to GRU , they handed him to Al Qaeda. Al Queda buried him in Saudi Arabia in his family burial site.

You can get info from Paula Broadwell who spilled out the beans and let the whole world know that CIA Annex was a one man prison facility.

You can also ask Kris Paranto for more info of why Stevens was the only one who was to be killed in a butchered by Patreaus CIA Clean Up OP.

The last witness is Elise Jordan. Brennan send his honcho to her so she would change the narrative that Michael Hastings was doing a story on Brennan and not Patreaus as originally was reported.

Later on Putin blackmailed Obama over Syria Red line throw Snowden's disclosure that operation to capture OBL was reordered by NSA from satellites and having DNA test taken from OBL. The famous Vladivostok interview when Putin said that he would refer to Obama not as President, but as Nobel Prize Recipient was just a simple message to Obama- One bullet over Damascus and the entire world will see NSA recordings of OBL taken to helicopter alive.

Please find attached my fax to Kash Patel

Since March 2015 I had been regularly providing FBI with information - copy of some of my emails to FBI are included.

Later on I send copies to the Select Committee On Intelligence.

In late August and September of 2018 I forwarded the files to 16 Senators and 10 Congressman.

The only real challenge to Mueller in Courts is a Constitutional Legality of his appointment.

And it is a relatively easy challenge to be raised. Ellis was desperately communicating the avenue to Manafort's Attorneys when he stated that prosecution doesn't really care about Manafort case - they only use him to get to President.

Should Manafort Legal team object to the whole prosecution on basis of Constitutionality of Special Counsel's appointment Ellis would agree with their motion.

Here are basic reasons to challenge the legality of Mueller appointment.

1. Mueller could not be appointed till Comey was in charge of FBI investigation into Russian involvement.
2. President Trump was argued by many, including his most closest adviser-Jared Kushner - to fire Comey, but he hesitated to do so.
3. On May 10, 2017, based on previous day Rosenstein's Memorandum to Attorney General - Restoring Public Interest In FBI- President fired Comey
4. Exactly in one week, using Comey's firing as a reason -same Rosenstein appoints Mueller as Special Counsel, giving him an unlimited authority.
5. If Comey wouldn't be fired, the FBI would still be in charge of investigation. And they did not have the legal authority to investigate beyond Collusion between Trump Campaign and Russians. And as Strzok famously put it - There is no big there there.
6. Rosenstein gave Mueller an unprecedented authority to investigate anything and anybody he chooses with or without reason. For example, without such an authority Cohen's criminal chargers would never happen.

The attached files sheds light on the underlying reason for Mueller appointment - and that reason is only one - to remove President of USA from the office.

And because this is a reason for his appointment, and because Rosenstein is the only reason Comey was fired - the whole appointment is illegal.

Thank you

Impeachment added 9/1/19

Mon, Sep 2, 2019 at 3:08 PM

Good morning. My name is Boris. I have information about Snowden disclosures that I would like to share. Yes, I can wait"

It was rainy November morning in New York City and I don't use umbrellas.

I was calling from a public phone. For all intents and purposes I could call from my cell phone. But I didn't want to get GRU involved. Not yet.

The AP building was next block. I was sure that the receptionist would eventually transfer me to Head of Security. That's why I chose Associated Press. If I would contact the regular newspaper or broadcasting company, they could actually put me through to some cub reporter, so he can have an educational experience. And that's definitely was not my plan. My plan was simple.

It was clear were Putin headed. And somehow I had to stop him. And the only way to stop him was to expose myself.

I needed to open a one way communication line to certain people. And what was a better way to do that, then having NSA hooked on all my emails, texts, phone conversations, etc. And who knows, one day they might put me under 24 hour surveillance. But for now, phone and email would do.

In 1991, when I just immigrated, my "friends" from Moscow orchestrated a first surveillance of mine by FBI. It lasted just a few month. I was obviously too "dumb" to have any ties to any intelligence organization. Things changed after Gek Bocharov paid a visit. He was one of the most accredited Russian journalists. He also was a Colonel of GRU at a time. Everybody knew that journalism was just a cover, so him visiting me in Atlanta definitely raised a red flag in FBI CI unit. I was watched for 2 years or so. But after a few years they decided that it was just what it was on a surface - a family friend, who happened to be a Russian spy. Nothing to it....

This time around had to be different. I needed their undivided attention. So I had to give them something serious. Something that would put me under surveillance for a very long time...

"Griggs speaking. How can I help you?"

So far everything was moving along as planned. Mr. Griggs was a head of Associated Press NYC Security. Ex Secret Service. Of course would be better if he'd be ex CIA. But I was not playing a lottery. Secret Service it is.

Over the next three meetings I shared with him my knowledge of OBL transfer from Afghanistan to the CIA Annex in Benghazi as well as the role Stevens played in delivering OBL to Russians. And butchered by Petraeus op to eliminate Stevens and tie the loose ends. I also described in smallest details Putin's use of Edward Snowden disclosures as a communication channel to Obama. The channel that Putin employed to blackmail and eventually recruit the President Of the USA.

He was listening to me carefully, with no emotions. Only one time I saw him surprised when he heard that GRU gave Bin Laden back to Al Qaeda so they can kill and bury him. Up till now folks in US Intelligence Community thought that Russians did the dirty job themselves.

He did not ask me where and how I got the info. He was professional. He asked me what I want. I thought for months before I called AP, what my answer should be, when he asks me that question. I bluntly told him that all I wanted was to stay above the radar.

could harm US but something that can result in Congressional inquiry and special prosecutor into Obama inner circle. And possibly into Obama himself .

I was sure that my texts would had an impact on Kerries December 28th speech.

They didn't. I was surprised, if not shocked.

And only later on I found out that the reason was simple. They were so afraid of all their communications being monitored that they reserved to a century old practice of hand delivering written notice to each other. I texted at 10.37 PM Eastern on December 26th. They simply did not process the information to Obama in time for Kerry to change his script.

The Paris Accord, however was scrapped completely.

Obama practically begged not to disclose the kompromat on himself when shortly after complete Paris capitulation Kerry mumbled that "Israel has no better friend than the outgoing administration"

For next year and a half I effectively countered every possible move of what became known as " Deep State". My regular emails to dosen FBI offices over the country produced the anticipated results. More and more FBI agents, CIA and NSA analysts and contractors decided to take a stance and started to share mine and others information not only with Nunes but also with Hannity, Dershowitz, Levin, Solomon and many others. My goal was simple - at the end a few of the conspirators would realize that ALL their communications are recorded, ALL their emails and texts are copied and will become public, should a necessity occurs. And once they do realise it, they will start to rat each other out. And then the only thing left is to have the other Special Counsel or US Attorney appointed to look at the possibility that it actually WAS a Collusion. Even bigger than Collusion. That it was a successful GRU op to undermine the US supremacy and to try to wreck havoc in the world. So I emailed my texts and emails to William Barr. I did not need to send him explanations. One of the most brilliant analysts Intelligence World ever had only made one call after reading my emails.

"Hi. This is Barr. I have a puzzle to solve.

Do you remember mentioning any of the following to your russian friend -

Russians German NOC list

Sobchak

Apartment bombings in Moscow prior to Chechen War

Kadyrov

His "business" dealings."

"The NOC list.... And the money" - answered Bush.

"We have a situation. I need your advice..."

Despite the appearance of mid IQ Cowboy, 43d President of the USA is far more intelligent then you might think. He knew that Barr didn't need an advice. What he needed was the access to ALL the intelligence data. NSA especially. And George W Bush had such an access. Even when they changed master codes, he was given a new ones.

'Sure thing. You know where I am at. Stop by anytime. I am bored anyway. "

The first thing that Barr looked at was the OBL-Stevens-Petraeus-Brennan.

He already knew that I was right, he just had to have an indisputable proof to go after President of USA. He was not coming after Obama without 100 percent guarantee of his personal safety. An order to transfer OBL to Benghazi convinced him that he had such a guarantee.

This part was added yesterday -

I trained myself to be prepared for virtually any possible scenario. It is difficult for someone to surprise me. But their next move did really surprise me. In any game there are rules. Some official and some not. And sometimes unspoken rules are the unbroken ones. This time they cancelled all the rules and went all in. And it means real trouble for Trump. If they are allowed to play this card, then impeachment in a house and Conviction by 80 percent in Senate is all but guaranteed. I Don't think Putin is involved with this one. They simply stumbled on it and at first didn't even figure out the whole thing. But they will- sooner or later. And unfortunately, I will not only have to take certain steps that I really hate, but also will have to translate to Trump what I am doing. After all the betrayals, he is at the stage that he doesn't trust anybody and surely will take my actions as another set-up.

On July 7, 2019 I texted myself the following - Brilliant move with Epstein. Paulsen attack variation. Sacrificing queen for checkmate". I was not talking figuratively. I was referring to Queen and her court. After Trump's visit to England, the prospect of watching Prince Andrew Windsor's porn movies might be too hard for president stomach.

This was a message to Barr. Within hours he changed his decision to recuse himself from Epstein case. On July 17, I followed with the - "When did Mueller attend Epstein's party? There were no texts between July 17th and July 19th when I warned of imminent Epstein's assassination - I texted "Are you going to wait till it's too late? Like with Kim? Don't you see who is pushing the buttons?" I don't know why Barr ignored my warning and it does bother me, especially knowing that Lamine N'Diaye was assured of \$5 Mln book deal. What I do know, is that steps were taken to copy everything Epstein had. After all it was not as difficult thing to do as hack Iranian nuclear documents.

The next thing was really disgusting for me to do. I always hate to deal with people I despise.

S. converted to Islam not because of his love to Muslims or religion of Islam. He doesn't believe in G-d at all. He converted for one reason - he hates America, Jews, and Western dominance. For same reason he chose to work for Putin's controlled RT and chose to do favors for GRU. And because of what he is, he became a very important figure for me. I had to send a message to certain people. And he was the perfect vehicle to deliver such a message.

I texted him my November 8, 2016 and December 12, 2016 memos and explained to him - After my November 16, 2016 memo 3 things happened

1. DNI Clapper resign within 2 hours
2. NSA Rogers, without communicating his actions to either Obama or Clapper, jump a plane to take a trip to NYC to meet with Trump.
3. Kerry had an emergency meeting with Lavrov in Lima APEC conference. Conference started on November 19th. Both Kerry and Lavrov was there on 17th. Immediately after intercepting my December 12, 2016 memo Clapper called Strzok and requested all the info FBI CI unit had on me.

Over the last 4 years I effectively countered every move by Putin and his minions in US to undermine American Democracy.

Many people were killed because of suspicions that I received info through them. Among those killed by Putin

1. GRU Director Sergun
2. Head of GRU Spetsnaz Shushukin
3. GRU Director Korobov
4. Putin's assistant Evorykin

Many other Russian Intelligence officers
Here in US

1. 14 Seals that took part in Abbottabad operation of OBL capture and subsequent transfer to Benghazi
2. Rolling Stones reporter Hustings who was digging into the matter and was getting too close to Patraeus communications.

3. Ambassador Stevens- a CIA operative who delivered OBL from CIA annex to Russian consulate in Benghazi

4. American contractors that disobeyed the orders to stand down during the Benghazi butchered op to kill Stevens

5. Admiral Stearney, who, as a chief of staff of Joint Task Force 435 oversaw the transfer of OBL from Afghanistan to Libya.

Putin-blackmailed Obama through Snowden disclosures.

For example Snowden statement that Abbottabad op was videotaped by NSA satellites and that DNA was taken from OBL to prove it was him effectively killed the Obama administration action in Syria after Assad used gas.

What Putin was saying to Obama- one bullet over Damascus and the entire world will see the NSA video of OBL taken alive and escorted to helicopter

I have a script.

He responded, we continued for a few days, I shared with him a lot of data, he was reporting our conversations to precisely the people I wanted him to report and then, after Epstein's murder, I delivered my closing point - in a series of texts I explained to the people on the other end of the wire the connection between Epstein murder and the Video Library he had. And in no uncertain terms warned that should the latest game plan against Trump be executed, then all those tapes will be played again and again for people all over the world to see. Nobody would be spared. And the Democratic party will probably cease to exist after it.

I don't know would that stop them or not. I hope they would rather give up Comey, Brennan and company and settle for a fair election. I, personally, wouldn't want those tapes to ever see the light of day. Because if they will, then we will witness market's collapse so big that Great Depression would look small.

After my November 16, 2016 memo 3 things happened

- 1.DNI Clapper resigned within 2 hours
- 2.NSA Rogers , without communicating his actions to either Obama or Clapper, jump a plane to take a trip to NYC to meet with Trump.
- 3.Kerry had an emergency meeting in with Lavrov in Lima APEC conference. Conference started on November 19th. Both Kerry and Lavrov was there on 17th.

Over last 4 years I effectively countered every move by Putin and his minions in US to undermine American Democracy. Many people was killed because of suspicions that I received info through them Among those killed by Putin

- 1.GRU Director Sergun
 - 2.Head of GRU Spetsnaz Shushukin
 - 3.GRU Director Korobov
 - 4.Putin's assistant Evorykin
- Many other Russian Intelligence officers Here in US

- 1.14 Seals that took part in Abbottabad operation of OBL capture and subsequent transfer to Benghazi
 - 2.Rolling Stones reporter Hustings who was digging into the matter and was getting to close to Patraeus communications.
 - 3.Ambassador Stevens- a CIA operative who delivered OBL from CIA annex to Russian consulate in Benghazi
 - 4.American contractors that disobeyed the orders to stand down during the Benghazi butchering up to kill Stevens

FBI only found about 20 percent of recordings Epstein had on the Island. Recordings that will play a huge melodrama in the media by next march. Those 20 percent were not removed so nobody would suspect someone visited the Island before Epstein "suicide" and spend almost a week there removing the 80 percent of blackmail material that world not supposed to see.
